DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1, 3-10, 12-14, 16-18, 21, 27-29, 31 and 39, drawn to a method.

Group II, claims 21, 20, 22-24, 26, 30, 36-38 and 40-41, drawn to a pharmaceutical product.

Group III, claims 31-35, drawn to an apparatus.

2. The inventions listed as Groups I, II, III and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2.

The special technical features which link the claims of groups I-III are the combination of a dense or liquefied gas with a substance to make a solution and then the formation of particles from said solution at lower pressure. Whether or not a technical feature makes a contribution over the prior art and therefore constitutes a "special technical feature" is considered with respect to novelty and inventive step.

(MPEP [R-6] 1850 II.) As evidenced by Henriksen (WO 97/14407, p 3 paragraph 4), the claimed technical features are known in the art. Therefore, the special technical

Art Unit: 1791

features fail to define a contribution over the prior art and unity of invention is lacking between these two groups.
